

West Virginia Logging Railroads

This list was prepared by Max Robin, one of the primary researchers in the history of West Virginia's logging railroad. The list was last updated in 2005 and was a work in progress. Max died in 2021 following several years of declining health. The list is obviously incomplete, but it is being posted because it is the most comprehensive list of West Virginia logging railroad information available. It is hoped that future researchers will be able to fill in some of the many blanks.

Any future updates to the list will be posted at the end. They will not be incorporated into Max Robin's list.

The list was originally on www.loggingrailroads.com, but that site is no longer active. The list was downloaded from a 2017 website snapshot on the Internet Archive (the "Wayback Machine") in November, 2022.
